Book of Tricks

(Catalog)

DG Performance Specialties designs, develops, tests and produces specialized high-performance equipment for competition motorcycles. Modification of existing factory equipment and subsystems is also a most important challenge. Our goal is to make your bike even better than it is. On the road, on the track, or in the dirt.

Only the best materials are used. We want the best for both of us. Therefore, each of these products and services has been thoroughly in-service tested by ourselves, as well as the best 125 and 250 riders in the nation.

Ask them about DG Performance Specialties. . . Jeff Jennings. . . Mark Tyer . . . Rick Bean . . . Mark Anderson . . . Greg Bartock . . . Dave Pessy . . . Tim Lundie . . . Danny LaPorte.

Let's get it on and go together with the best performance equipment available.

DG Has It!
