

one-two- five blastoff

Now there's a 125 that you can have confidence in; Husqvarna's one-two-five. Trail riding or competition, you can put your confidence in Husqvarna's engineering excellence, quality craftsmanship, performance and reliability. And for '74, we've improved the power through the mid-range with a redesigned exhaust system and a BING carb. The 6-speed transmission has been fitted with "quiet gears" and a new inlet silencer gives the 125 "quiet power." Nylon control cables and sure-grip folding foot pegs are the kind of features you've come to expect on a Husqvarna. See your Husky dealer now and check out the one-two-five.

Confidence! Husqvarna 125
