# RACE WINNING TRICKS

Motocross  
Center

# **THE THRILL OF VICTORY**

## **THAT'S WHAT RACING IS ALL ABOUT!**

This catalog "RACE WINNING TRICKS" is for the serious racer who wants to win, not just ride. The Suzuki RM is basically an excellent bike, but at Motocross Center we feel it can be modified with our special high performance parts that make it stronger, much faster, and handle far superior than stock. The competition edge is your key to victory! All of the high performance parts you see in this catalog have been thoroughly race tested by local and national PRO riders in such events as the U.S.G.P. Florida and National series. Besides race tested and proven parts, Motocross Center features:

- 1 DAY SHIPPING
- FULL STOCK OF ALL PARTS
- NO NONSENSE CUSTOMER SERVICE
