

SKYWAY

RECREATION PRODUCTS

SKYWAY RECREATION PRODUCTS, long the leader in silencers and spark arrestors, also builds many other fine products for motorcycles. Handlebars, goggles, four-stroke pipes, two-stroke racing exhaust systems and air fork conversion kits are just a few of them.

Perhaps not as well known is the fact that Skyway also builds products for the rapidly growing bicycle motocross market. The justly famous Zytel® nylon 20-inch motocross wheel is just one example of what can be done when a company, born in the aerospace age, can do when it sets its mind to it.

Other bicycle products include front axles and Saf-T- Bars.

At the moment this catalog is 24 pages long, but we suggest you plan on filling up the rear in the future because we have many more new, and we think exciting, products on the drawing boards. Many of them will be in the high performance dirt field, but we are rapidly expanding our street rider products. All of them will be of the same quality Skyway is known for so in selling them you can rest assured you will have pleased customers.

Skyway – For the very BEST in Recreation Products.
