TOM

DAN

Dan and Tom White, twin brothers and co-owners of White Bros. Cycle Specialties bring you over 20 years of combined experience in all phases of motorcycling.

We have built our business around specializing on a select few off-road motorcycles. By not trying to manufacture or distribute products for every popular off-road motorcycle, we feel we can offer you the finest accessories available. We won't sell an accessory that we feel doesn't improve the stock motorcycle.

We hope that you, our customer, will take as much care in installing our products on your motorcycle as we did in designing and testing them.

MONOSHOCK

White Bros. suspended mono's have had a great year. We were led by Rocket Rex Staten who finished 2nd in the 500 National point standing. Rex uses the White Bros. modified shock in all non-national events and ran our shock the first half of the national series before being picked up by Yamaha for a factory ride. Charles Welk and Tom Brooks finished 1, 2 at the BFG Off Road World Championship with White Bros. suspension. Two weeks later, Scott Gillman, Rex Staten and Jim Gibson took 2nd, 4th and 5th in the Saddleback Olympiad M/X on their White Bros. suspended monos. They headed such notables as Gaylon Mosier and Brad Lackey. Yamaha support rider Charlie Hamill has already sewed up the District 37 #1 Desert Plate in 1978 with a White Bros. Mono. Let the White Bros. fill your suspension needs. Whether you're a trail rider or a professional motocross racer, White Bros. can meet your monoshock suspension needs.

WHITE BROS. YZ WORKS FORK MODS

Send us your 77, 78 YZ forks and we will modify them for up to 12" fork travel. We install progressive fork compression and rebound springs and modify damper rod valving similar to the factory bikes. The harshness is completely eliminated, travel dramatically increased, and engagement is adequate. Travel is 11" on YZ 125 D/E and YZ 250/400 D with 12" travel on YZ 250/400 E. For cash savings, send damper rods only.

YX Works Fork Mods — Complete forks (don't send crowns)

Includes labor, compression and rebound springs, oil, and damper rod mods. \$74.95

YZ Works Fork Mods — send damper rods only

Includes damper rod mods, compression and rebound springs, and instructions. \$52.95

YZ Works Fork Springs Only — Compression and rebound. \$44.95

12" TRAVEL MONOSHOCK MOD

White Bros. can modify all 77, 78 YZ monoshocks to 12" to travel. Prices are the same as the 11" modifications listed on pages 13, 14 and 15 of the catalog.
